Despite their bright-eyed innocence, untrained puppies and dogs will leave a path of destruction wherever they roam. When we let our attention wander for the briefest of moments, we find our favorite shoes with unattached laces and soles, our most valuable possessions imprinted with tiny teeth marks, and items from the trash riddled throughout the house. Although eliminating these specific behaviors is a feasible goal, even within the first few weeks of your new addition's arrival, you'll want to start with the basics—determining the training category and method your puppy needs, teaching your puppy the basic obedience and behavioral commands that they'll use for the rest of their lives, housebreaking your puppy, and correcting the bad “puppy-habits” that inevitable come up, most commonly in the form of chewing, jumping, and barking. This book, riddled with facts that correct popular training myths and filled with tidbits of scientifically-proven information about canines, will familiarize you with the training basics every successful dog owner needs in order to transform their innocently destructive pooch into a well-trained, rule-abiding family member.

Confidently train your dog to become obedient, house broken, and happy!
