Research and Advanced Technology for Digital Libraries: 5th European Conference, ECDL 2001, Darmstadt, Germany, September 4-9, 2001. Proceedings (Lecture Notes in Computer Science)

Digital libraries (DLs) are major advances in information technology that frequently fall short of expectations [7, 28]. Covi & Kling [7] argue that understanding the wider context of technology use is essential to understanding digital library use and its implementation in different social worlds. Recent health informatics research also suggests that social and organisational factors can determine the success or failure of healthcare IT developments [8, 11, 12]. Heathfield [11] suggests that this is due to the complex, autonomous nature of the medical discipline and the specialized (clinician or software engineer) approach to system development. Negative reactions to these systems is often due to inappropriate system design and poor implementation. However, there may be other less obvious social and political repercussions of information system design and deployment. Symon et al [26] have identified, within a hospital scenario, how social structures and work practices can be disrupted by technology implementation. Although these systems often deal with sensitive, personal information, other system design research has found that apparently innocuous data can be perceived as a threat to social and political stability [1,2,3]. To understand the impact of DLs within the medical profession, an in-depth evaluation is required of the introduction and later development of these applications within their specific social and organisational settings. However, as Covi & Kling [7] have highlighted, there are few high-level theories that aid designers in understanding the implication of these issues for DL design and implementation.

From reader reviews:

Nathan Herr:

People live in this new morning of lifestyle always try and must have the time or they will get lot of stress from both way of life and work. So , when we ask do people have time, we will say absolutely yes. People is human not really a robot. Then we inquire again, what kind of activity are there when the spare time coming to a person of course your answer may unlimited right. Then do you try this one, reading books. It can be your alternative with spending your spare time, the particular book you have read is usually Research and Advanced Technology for Digital Libraries: 5th European Conference, ECDL 2001, Darmstadt, Germany, September 4-9, 2001. Proceedings (Lecture Notes in Computer Science).

Herman Pruitt:

Reading can called thoughts hangout, why? Because when you are reading a book specially book entitled Research and Advanced Technology for Digital Libraries: 5th European Conference, ECDL 2001, Darmstadt, Germany, September 4-9, 2001. Proceedings (Lecture Notes in Computer Science) your head will drift away trough every dimension, wandering in every aspect that maybe mysterious for but surely can become your mind friends. Imaging every word written in a reserve then become one type conclusion and explanation in which maybe you never get before. The Research and Advanced Technology for Digital Libraries: 5th European Conference, ECDL 2001, Darmstadt, Germany, September 4-9, 2001. Proceedings (Lecture Notes in Computer Science) giving you one more experience more than blown away your head but also giving you useful facts for your better life on this era. So now let us demonstrate the relaxing pattern is your body and mind will likely be pleased when you are finished reading it, like winning an activity. Do you want to try this extraordinary investing spare time activity?

Herbert Turley:

You will get this Research and Advanced Technology for Digital Libraries: 5th European Conference, ECDL 2001, Darmstadt, Germany, September 4-9, 2001. Proceedings (Lecture Notes in Computer Science) by look at the bookstore or Mall. Only viewing or reviewing it could possibly to be your solve issue if you get difficulties for the knowledge. Kinds of this publication are various. Not only simply by written or printed and also can you enjoy this book simply by e-book. In the modern era including now, you just looking from your mobile phone and searching what your problem. Right now, choose your current ways to get more information about your reserve. It is most important to arrange you to ultimately make your knowledge are still change. Let's try to choose appropriate ways for you.

Ann Gonzalez:

Some individuals said that they feel bored when they reading a reserve. They are directly felt it when they get a half areas of the book. You can choose typically the book Research and Advanced Technology for

Digital Libraries: 5th European Conference, ECDL 2001, Darmstadt, Germany, September 4-9, 2001. Proceedings (Lecture Notes in Computer Science) to make your current reading is interesting. Your own personal skill of reading skill is developing when you such as reading. Try to choose straightforward book to make you enjoy to learn it and mingle the feeling about book and reading through especially. It is to be first opinion for you to like to open up a book and read it. Beside that the publication Research and Advanced Technology for Digital Libraries: 5th European Conference, ECDL 2001, Darmstadt, Germany, September 4-9, 2001. Proceedings (Lecture Notes in Computer Science) can to be your brand new friend when you're feel alone and confuse in doing what must you're doing of these time.
