## **The Last Ride Of Bonnie and Clyde** David Pietras

Bonnie and Clyde were meant for each other. And they clung to each other while they fought back against the elements. These elements were destitution and a government they took for its face value. They were children of a nationwide economic depression that not unlike France in the late 1700s had its upheavals and those who tried to keep small the size and impact of the upheavals. Anger dwelt within Clyde, having been born ragged and made more ragged by the Depression. He sometimes killed in cold blood, and always tried to justify the murders as if he had a right to pull that trigger, thus releasing somehow the seething that built up like a volcano deep inside him. Perhaps he actually believed in his own special privilege. As the fame of Bonnie and Clyde grew, they shot their way out of police loops, each time growing tighter and tighter, and claimed that the "laws" they killed just happened to get in the way between their fiery outcry and the rest of the country. Their killings were not personal, they contended. But, the government took them personal. And Bonnie and her man were marked for death.
