Women's struggles and organizing efforts within and outside the antiapartheid liberation movement have meant that women now occupy positions of power in South Africa, but capitalist patriarchy is still intact. From 19 differing vantage points within struggle, this book offers a critique of women's position in South Africa today and gives new meaning to women's knowledge, analysis, vision, and actions for change. Feminist Alternatives suggests that rights and freedoms for women are the litmus test of meaningful change and asserts that any notion of sustainable transformation must insist on radical ruptures with capitalist patriarchy. Any conceptualization of democracy that ignores the economic and social disenfranchisement of the social majority must be rejected.
