Off and Running is a unique text for the first semester of the 1L legal writing and research course, designed to guide students through their development of the essential skills needed to practice law. Using a single, classroom-tested fact pattern, the authors demonstrate in concrete steps how a first-year associate might approach a legal problem. Students practice these steps and skills on other fact patterns, as they read about this fictional associate.

Using this fresh approach and a plain-English writing style, the authors introduce essential concepts and skills related to objective legal writing and legal research, with a particular emphasis on the professional and ethical representation of clients. Students learn how to think like a lawyer.

- Emphasis on how skills relate to the practice of law, with focus on both litigation and transactional applications.
