**The Anthropology of Globalization: Cultural Anthropology Enters the 21st Century** Ted C. Lewellen  
Through multiple examples, selected from the latest ethnographic research from all over the world, Lewellen examines the ways that globalization impacts migrants and stay-at-homes, peasants and tribal peoples, men and women. A crucial theme is that the global/local nexus is one of unpredictable interaction and creative adaptation, not of top-down determinism. Theoretically, globalization studies have become the focal point for the convergence of interpretive anthropology, critical anthropology, postmodernism, and poststructuralism, which are combined with a tough empiricism. For the casual reader or the classroom, this work draws together the ethnographic studies and cutting-edge theories that comprise the anthropology of globalization.
