Walter E. Smith

Charles Dickens: A Bibliography of His First American Editions 1836-1870 Walter E. Smith

This significant work identifies the first and early American editions of Charles Dickens's novels and Sketches by Boz and traces their publishing history, including various impressions and sub-editions, from 1836 to 1870, the year of Dickens's death. Each of the entries provides detailed textual data and binding descriptions and is supplemented by photographic reproductions of title pages and bindings. The notes contain interesting comments about the novels, including their appearances in newspapers and journals, typographical points, and payments made to Dickens. The bibliography was compiled from firsthand examinations of the books at major libraries and institutions throughout the country, in private collections, and in the possession of several rare book dealers. The content complements and stylistically conforms to the author's previous two-volume bibliography on Dickens's English editions. The book is an indispensable source of reference for libraries, collectors, booksellers, researchers, and students of Victorian literature since no other work of this magnitude on Dickens's American editions has ever been undertaken or published. 456 pages. hardcover, dust jacket. 8 x 10.75 inches.
