Midpoints: A Kabbalistic Compendium of Meanings for Astrological Midpoints John Sandbach

Midpoints are a major tool for an astrological interpretation. Until now there has been very little written on the subject, the main book being Reinhold Ebertin's "Combination of Stellar Influences" which is highly limited, has little depth, and which is focused on events and outer occurrences rather than psychology.

"Midpoints : A Kabbalistic Compendium of Meanings for Astrological Midpoints" approaches this subject of midpoints from an inner world perspective and delivers insightful interpretations for all of the planetary midpoints, as well as combinations for Chiron, the Ascendant, Midheaven and Moon's Node. This groundbreaking book is a must have for the practicing astrologer as well as all astrological students.

Included in the book are meanings for 91 astrological combinations and 1,092 midpoints.
