Protestants: The Birth of a Revolution Steven Ozment

Who were the first men and women who abandoned the Church of Rome and became the world's first Protestants? Harvard historian Steven Ozment does not present us with the remote, dusty figures of history, but rather with the shoemakers and housewives, students and politicians who were among the first followers of Martin Luther. Using pamphlets, diaries, letters, and other primary sources, Ozment examines the origins of the Reformation and the nature of Protestantism. Rather than seeing the Reformation as the progenitor of German absolutism, as do many scholars of the period, Ozment sees in Protestantism the historic assertion of key Western values--social reform, individual religious conviction, hard work, and the rejection of corruption, hypocrisy, and empty ritual.
