There are monsters, then there are monsters. Which kind wants her dead?

The Mythical Knights, Book 1

There was a time Marissa van Dyke loved Halloween. Then tragedy struck. Now the sight of a jack-o-lantern only reminds her of what she's lost. In fact, she'd prefer to just hibernate.

But recently her nightmares are becoming too intense to ignore. Dreams filled with horror-movie creatures that come closer to killing her every time. Where these vampires and werewolves are coming from, she doesn't know. She only knows they're relentless.

Neil Drigan has no interest in finding a mate. Bind himself to one woman? No thank you. Permanent is for the wolf pack Alpha--his brother. Yet lately he persistently dreams about running, in full wolf form, to save a beautiful woman who smells of flowers--and death.

At first the woman's identity is a mystery, until he realizes the dreams are a residual imprint of something that really happened. Not only is the woman temptation wrapped in real flesh and blood, she's still in danger. And the one thing he never thought he wanted.

Originally released as "Unholy Night" 2008-2012.

Warning: Werewolves, vampires, Templar Knights with attitudes, and a girl who must face her biggest fear in order to find love.
