In trying to establish a presence in China, foreign investors have found it imperative to understand the regulatory environment of this potentially huge market. This book provides an up-to-date overview of the legal framework for doing business in China. It covers such topics as state structure; legislative amendments and enactments on direct foreign investment; the court system; the legal profession; business entities; foreign investment enterprises; contracts; intellectual property; labor and employment; consumer protection; taxation; securities; and dispute resolution.

Apart from explaining legal principles, the book highlights liberalisation measures that China has undertaken to fulfil its WTO commitments; elucidates complicated legal concepts with examples of court decisions; discusses relevant foreign trade and investment policies; and includes a glossary of Chinese terms.
