Materials in Sports Equipment (Woodhead Publishing in Materials)

Aleksandar Subic

Materials in Sports Equipment (Woodhead Publishing in Materials) Aleksandar Subic

The first volume of Materials in sports equipment has become an essential reference describing improvements in materials technology and their impact on equipment in a range of sports. This second volume combines coverage of recent developments in advanced materials and their application in a number of sports not covered in Volume one.

Part one discusses general issues such as modelling of materials behaviour in sports equipment, non-destructive testing methods, materials and design for sports apparel and mouth and skull protection. Part two analyses the materials and design of equipment used for specific sports: baseball, snowboarding, ice hockey, fly fishing, archery and rowing. The book also reviews design and materials in athletics and fitness equipment.

This book is a unique and essential reference to all materials scientists and sports equipment designers and manufacturers developing products in this rapidly evolving field.

- Reviews recent developments in advanced materials and their applications in a number of sports
- Discusses issues such as modelling of materials behaviour in sports equipment and non-destructive testing methods
- Analyses materials and design of sports apparel and athletic equipment

From reader reviews:

Celia Robertson:

Nowadays reading books become more than want or need but also work as a life style. This reading habit give you lot of advantages. The advantages you got of course the knowledge the rest of the information inside the book this improve your knowledge and information. The data you get based on what kind of e-book you read, if you want attract knowledge just go with education and learning books but if you want really feel happy read one together with theme for entertaining such as comic or novel. Typically the Materials in Sports Equipment (Woodhead Publishing in Materials) is kind of reserve which is giving the reader unforeseen experience.

Amy McCarter:

Information is provisions for those to get better life, information these days can get by anyone on everywhere. The information can be a expertise or any news even a huge concern. What people must be consider any time those information which is within the former life are challenging be find than now's taking seriously which one is appropriate to believe or which one the particular resource are convinced. If you obtain the unstable resource then you understand it as your main information we will see huge disadvantage for you. All those possibilities will not happen in you if you take Materials in Sports Equipment (Woodhead Publishing in Materials) as the daily resource information.

John Keys:

Often the book Materials in Sports Equipment (Woodhead Publishing in Materials) has a lot of knowledge on it. So when you read this book you can get a lot of benefit. The book was compiled by the very famous author. Tom makes some research previous to write this book. That book very easy to read you can get the point easily after reading this book.

John Flores:

As a scholar exactly feel bored to reading. If their teacher requested them to go to the library or even make summary for some book, they are complained. Just minor students that has reading's spirit or real their passion. They just do what the professor want, like asked to the library. They go to presently there but nothing reading very seriously. Any students feel that looking at is not important, boring in addition to can't see colorful pics on there. Yeah, it is to get complicated. Book is very important for you personally. As we know that on this time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this Materials in Sports Equipment (Woodhead Publishing in Materials) can make you sense more interested to read.
