I really find these series fascinating because my nephew who just graduated from his kinder year is so into these animal habitat thing and he's reading All about wolves as his first choice. It really amazes me to see that there is a book dedicated to each animal alone and for me, I think this will really help children get to know their favourite animal more.

This book is such a great adventure for children into wild world! The author of this book provides incredible true facts (that many people may not be aware of), fascinating myths and amazing real life photos of these animals. Well written, easy to understand for children. I recommend this book for all children as well as all animal lovers. Great work! Thanks to the author!

5.0 out of 5 stars Great book for kids who love wolves or any animals! February 21, 2014
