"A light-hearted approach to the problem of beached whales, Humphrey's story allows librarians to give a happy 'yes' to that often-asked question, 'Is this a true story?'"—*School Library Journal*

"What happens to Humphrey makes a fascinating and delightful story for young and old alike."—KIdsGrowth.com

*Humpback whales are magnificent creatures that sing beautiful songs to each other underwater. In the whole world there are very few of them, so each one is quite special.*

And they are intelligent. Every winter they travel south, every summer they head north, and they always know the way.

But even whales can make mistakes . . .

In October 1985 a forty-five-foot long, forty-ton humpback whale wandered into San Francisco Bay and for twenty-six days struggled mightily to find his way back to the ocean. This true, illustrated story of Humphrey's adventure has been a children's favorite for more than twenty-five years. The 2014 edition has updated news on whales but retains the beloved art and text for big-ocean-mammal lovers everywhere. Adopted for Reading Rainbow.
