Novella companion to Sanctuary

What if the Biblical End Times unfolded in a way no one told you about and the rapture didn't happen before the tribulation began...

Aliens have attacked and Rory's mother is missing, but none of that matters much to him. He's safe in his apartment complex, has his friends and his twin sister, Hailey. But as supplies start to dwindle, it becomes obvious that he needs to do something to make sure they all survive...even if it means he has to brave going outside through the Shisa and the zombies people have become. As long as they are safe, that's all that matters, right?
