World 2.0: A History from Enlightenment to Terrorism and Beyond Jelle Peters

Trying to conquer the world is older than Rome, but trying to make it better is younger than New York. Why is that? And why has it proved so difficult and disruptive, even dangerous?

In *World 2.0: A History from Enlightenment to Terrorism*, Jelle Peters explores the causes and far-reaching consequences of some of the most influential, spectacular, moving, misguided and horrible efforts to **remake the world** during the past 250 years.

From a Second American Revolution to the Suffragettes and the Civil Rights Movement, from the New Deal to the Chinese Cultural Revolution, from the proud heights of technological achievement to the dark abyss of organized extermination, from the V-2 to outer space, from Nagasaki to 9/11.

World 2.0: A History stands out for combining fast-paced storytelling and vivid accounts of the situation on the ground with in-depth analysis and explanation of the reasons behind events, while also revealing intimate, surprising, even shocking connections between the past and our present.

We may be tempted to view our world as that shining city upon a hill, but we are **tied to the past by a thousand strings**. And with growing tensions caused by rising income inequality, persistent discrimination and ruthless religious extremism, can you afford not to learn from it?
