What is luck?

Merriam-Webster's definition of "Luck":

- a- A force that brings good fortune or adversity.
- b- The events or circumstances that operate for or against an individual.

But what is that "force" that brings good fortune or adversity? And how events or circumstances "operate" for or against an individual? Merriam-Webster does not provide an explanation.

There is a force that shapes and conditions luck; it is the force of the Maktoob, meaning what it is already written in the "Kitbu Dounia", meaning the book of our life, the book of our fate; the book of our destiny. And how do we explain the mode of operation of events or circumstances that work for us or against us? The mode of operation of what constitutes "Luck" is always conditioned by unseen metaphysical factors, only known to the Anunnaki Ulema and Sahiriin. Basically, these factors include:

Factors which influence your future and luck:

- Maktoob.
- The fluctuation of the "Grid of Calendar" of the good hours and bad hours in our lives: Rizmanah. The calendar of hours and days of your life which bring you good luck and bad luck.
- Some hours are positive, others negative.
- Kharta-Makan, which means your zone. In other words, where you live; the location of your home, office, and other places you have lived at and/or you shall occupy in the future.
- Ismu, which means your name. It is very true that your name plays a paramount role on the landscape of your luck, future, success and failures.

In summary, time, places and even your name are part of the scenario of the film of your life on the screen of your existence on Earth, and beyond.

The Enlightened Masters don't believe in coincidence (s).

They have told us that everything in our lives happened for a reason. There are reasons we fully understand as the consequences of our deeds, acts and decisions.

And there are reasons we don't understand.

Are they caused by others?

Are they dictated by fate?

Can we change the results, outcome and consequences of these reasons, and alter their effect on our lives, success, happiness, and failure? Yes, we can to a certain degree. This book will show you how!

The book includes:
