Gesenius' Hebrew Grammar: As Edited and Enlarged By the Late E. Kautzsch

A. E. Cowley

Gesenius' Hebrew Grammar: As Edited and Enlarged By the Late E. Kautzsch A. E. Cowley

This edition is the English translation (1910, A. E. Cowley (1861-1931)) of the last significant revision of the work (1909, E. Kautzsch). See the prefaces for more information about the book's earlier editions. This grammar focuses on Biblical Hebrew only. It mentions Rabbinic Hebrew (calling it NH - "New Hebrew") only occasionally and has no information about Modern Israeli Hebrew, which was in its early formative stages when this edition was published. Also, its style of linguistic description is somewhat archaic. For example, it uses many Latin terms for which modern English terms exist. It also tends to describe historical sound change as "corruption", something which is avoided in modern Linguistics. Despite these minor shortcomings, even in the 21st century Gesenius' Hebrew Grammar remains one of the most important scientific sources on the grammar of Hebrew. ~ From Wikisource
