The Original Self-paced Learning System

Education is undergoing a vast transformation through the creation of new technologies. While the workbook/journal format might seem low tech by comparison, it has an important place in acquiring knowledge and skills. A workbook is the original self-paced learning system.

Whether a practitioner is beginning to study massage for people affected by cancer or is deepening their practice, learning occurs through a number of directions: self-study, guided clinical lessons with an experienced teacher, supervised hands-on practice with clients, mentoring, and peer support via group interactions.

Medicine Hands, the textbook, addresses the knowledge needed to work safely with these clients. *Medicine Hands Therapist Workbook and Journal* focuses on practicing with the information so that it becomes more ingrained. The workbook and journal uses the following types of activities to build practitioner knowledge:

- quizzes
- supplemental activities
- awareness exercises
- reflective questions
- ethical dilemmas
- touch exercises
- case studies

Like *Medicine Hands*, the workbook and journal continues the use of the pressure, site and position framework as a core tenet.
